Professional Summary

Computer Engineering graduate with hands-on experience in Embedded C, C++, ARM7 (LPC2129), microcontroller programming, and communication protocols (UART, SPI, I2C, CAN). Currently training in Embedded Systems at Vector India, with project experience in RFID attendance systems, real-time MIDI signal processing, and IoT home automation. Internship background in React, Frappe Framework, Python, and REST APIs. Strong debugging and problem-solving skills with a focus on Embedded Software and Firmware Development.

Education

Gyanmanjari Institute of Technology (GMIT), Bhavnagar, Gujarat <i>Bachelor of Engineering (Computer Engineering)</i>	Sept 2022 – Jul 2025 CGPA: 7.44
Sir Bhavsinhji Polytechnic Institute, Bhavnagar, Gujarat <i>Diploma in Information Technology</i>	Aug 2019 – Jun 2022 CGPA: 7.39

Professional Training

Embedded Systems Training (Pursuing) <i>Vector India, Bengaluru</i>	Sept 2025 – Present
• Course Topics: C, C++, Embedded C, ARM7 (LPC2129), Data Structures, Linux System Call Programming, Communication Protocols (UART, SPI, I2C, CAN 2.0), Device Interfacing, Keil μVision, Linux Basics. • Built and debugged 10+ embedded C/C++ programs on ARM7 (LPC2129) hardware using Keil μVision, covering interrupts, memory-mapped I/O, and peripheral interfacing. • Practiced Linux system call programming and data structure implementation to strengthen low-level firmware development and debugging skills.	

Experience

Software Engineering Intern <i>Service-Further</i>	Jan 2025 – Dec 2025 Remote
• Worked on enterprise applications using Frappe Framework, React, Vite, and Python. • Developed backend functionality, REST API integrations, and reusable frontend components. • Collaborated with development teams using Git and agile practices to enhance application workflows.	

Skills

Programming Languages: C, C++, Embedded C, Python, HTML, CSS	Microcontrollers & Microprocessors: LPC2129 (ARM7), Arduino UNO
Operating Systems: Linux, RTOS Concepts (Fundamentals)	Protocols: UART, SPI, I2C, CAN 2.0
Peripheral Interfaces: ADC, GPIO, DS1307 RTC, LCD16x2	System Programming: Linux System Call Programming
Development Tools: Keil μ Vision, Arduino IDE, Git, VS Code	Web Technologies: React, Vite, Frappe Framework, REST APIs

Projects

Smart RFID Employee Attendance System <i>[Embedded]</i>	<i>LPC2129, RFID, DS1307 RTC, LCD16x2, UART</i>
• Developed an RFID-based attendance and access management system with real-time date/time logging. • Integrated RFID module, RTC, and LCD display for accurate attendance tracking.	
TemporalForge – MIDI Drum System <i>[Embedded]</i>	<i>LPC2129, Embedded C, UART, ADC</i>
• Designed a real-time MIDI drum system using LPC2129 ARM7; implemented ADC signal processing and UART-based MIDI communication with dynamic velocity response.	
Student Management System <i>[Systems]</i>	<i>C, Singly Linked List</i>
• Menu-driven application using Singly Linked List for dynamic record management — insert, delete, search, and update operations.	
E-book Bargaining & Sell <i>[Degree Project]</i>	<i>PHP, JavaScript, HTML, CSS, Bootstrap, MySQL</i>
• Designed a library management website for cataloging, user management, and streamlined lending processes with intuitive admin and patron workflows.	
Home Automation <i>[Diploma Project]</i>	<i>Arduino UNO R3, HC-05 Bluetooth, 4-Ch 5V Relay</i>
• Built an IoT-based smart home system integrating sensors, Bluetooth module, and relay control for remote and automated operation.	
AI-Powered Resume Analyzer <i>[Personal Project]</i>	<i>React, Vite, TypeScript, Groq AI API, PDF.js</i>
• Built an AI-assisted resume analysis tool with PDF parsing and job-description matching with compatibility scoring.	
Service-Further Website <i>[Internship Project]</i>	<i>React, Vite, TypeScript, Frappe Framework, MariaDB</i>
• Developed a responsive service-based web platform integrating backend APIs, authentication, and production-ready frontend modules.	

Achievements

Tabla Visharad – Akhil Bharatiya Gandharva Mahavidyalaya Mandal | First Class with Distinction | 2nd rank, district-level Tabla competition | Multiple cultural performances & events
